

How can our Counter Terrorism team help you?

SCaN (See Check and Notify)

These state-of-the-art training packages, based on extensive research, are suitable for all personnel, in particular: security managers; decision makers; CCTV operators; and customer-facing staff. SCaN helps organisations to understand how and why hostile reconnaissance is conducted and the measures that can be taken to disrupt it.

SCaN Decision Makers

Strategic awareness briefing to senior executives at a site or organisation on all SCaN approaches and training packages including the merits on why a site should adopt SCaN.

SCaN Security Managers

A mentoring programme that aims to empower the security manager to target harden their site against hostile reconnaissance.

SCaN Comms Professionals

Workshops to enable communications professionals to deliver security minded deterrence communications at their site.

SCaN CCTV Operators

Course for CCTV Operators enabling them to identify hostile reconnaissance and suspicious activity, have an awareness of observational and judgemental errors, and work in partnership with the police.

SCaN Customer Facing

Interactive training for staff who have face to face contact with customers, the public and site users. It covers suspicious activity, the importance of vigilance, the power of hello and how to report your concerns

SCaN All Staff

Briefing to all staff to raise awareness of what hostile reconnaissance is and how it can be deterred and to encourage suspicious activity to be reported.

How can our Counter Terrorism team help you?

We provide the sessions below free of charge.

If you have any concerns or questions regarding security, or would like to discuss a 'tailor-made' session for your organisation, please don't hesitate to contact us.

ACT (Action Counters Terrorism) Awareness

This session is open to all and aims to raise attendees' awareness of terrorism. This national initiative also helps to protect our cities and communities from the threat of terrorism. The session includes (but is not limited to) the following topics:

- Current threat level
- Dealing with and reporting suspicious activity
- Response to firearms and weapons attack

Document Awareness Workshop

This highly popular and practical workshop is for staff who have regular interaction with passports and ID cards in their day-to-day work. It provides staff with a thorough insight into some of the security features contained within identity documents. The additional skills they gain will create a more robust screening process when recruiting and reviewing employees and increases protection against insider threat and criminality.

ACT Operational

Interactive workshop designed to raise awareness of Counter Terrorism issues, improve security culture, assist delegates with understanding the role they play and increase confidence when responding to an incident.

Postal Awareness Workshop

Aimed at staff and security personnel responsible for handling post, this workshop provides an opportunity for staff to understand the types of postal threat used by terrorist and domestic extremist groups. The session also covers what actions an individual and the business should take if they find suspicious items.

Prevent

Prevent is part of the Government strategy to keep people safe from terrorism. It aims to safeguard and support individuals who are vulnerable to be drawn into terrorism. The workshop gives the audience an understanding of people at risk of radicalisation and how to safeguard individuals.
